Strategies for Ensuring Cultural Competency and Language Accessibility

August 18th, 2017
10 AM - 4 PM

Social Service providers are charged with the ethical responsibility to be culturally competent and language accessible. This workshop will focus on discussing cultural competency, language accessibility and the roles of social service providers in a practical manner, allowing participants to have clear examples illustrating the importance of cultural competent practice, social service provision, interactions and policies. This workshop is hands-on and participant-driven, creating a framework for participants when striving for a culturally competent and language accessible practice.

REGISTRATION FORM:

Name: ____________________________________________________________

Title: _____________________________________________________________

Agency: ___________________________________________________________

Address: __________________________________________________________

City, State, Zip: ___________________________________________________

Phone: ___________________________________________________________

Fax: ______________________________________________________________

Email Address: ___________________________________________________

Workshop Objectives:

• Using Cris Cullinans’ article, “Vision, Privilege, and the Limits of Tolerance”, participants will distinguish the three presumptions about the dominant culture.

• Participants will discover the connection between the three presumptions and the standards for culturally competency in the provision of social services and why it is important.

• Discuss Title VI and the responsibilities of Federal Funds Recipients to provide meaningful access to programs.

• Define “meaningful access” and provide strategies to achieve “meaningful access” to programs.
