# GENERAL INFORMATION

## What is KCADV?

The Kentucky Coalition Against Domestic Violence (KCADV), formerly known as the Kentucky Domestic Violence Association, is a coalition of Kentucky's fifteen regional domestic violence programs (shelters) providing services to victims of domestic violence and their children. KCADV provides resources, training, and technical assistance to its fifteen member programs.

According to the 2016 Domestic Violence Counts Survey, 1106 victims were served in one day. 738 domestic violence victims found refuge in emergency shelters or transitional housing provided by local domestic violence programs.

Three hundred sixty eight adults and children received non-residential assistance and services, including counseling, legal advocacy, and children's support groups.

In that 24-hour survey period, domestic violence programs answered 232 calls, approximately 6 hotline calls every hour.

## KCADV's Mission

The mission of the Kentucky Coalition Against Domestic Violence is to mobilize and support member programs and allies to end intimate partner violence.

## What KCADV Does

The Kentucky Coalition Against Domestic Violence was founded in 1981 by the staff of the six existing domestic violence programs (shelters) as a statewide coalition whose membership was to include all domestic violence programs in Kentucky. KCADV's purpose was to provide programs with mutual support, information, resource sharing, and technical assistance; to coordinate statewide services; and to advocate collectively on behalf of victims of domestic violence and their children.

An early goal of the coalition was to work with the Cabinet for Health and Family Services to ensure that domestic violence services were available across the state. Since Kentucky has such a large number of counties (120), the Commonwealth is divided into fifteen, multi-county Area Development Districts (ADDs) for planning and service provision purposes. In 1985, Kentucky reached its goal of having one domestic violence program in each ADD.

## KCADV Training Institute

Everyone deserves to live free from violence, and domestic violence agencies play a big role in creating safe communities. We know that domestic and sexual violence affect gay, lesbian, bisexual, transgender, and queer people at equal or even higher levels than they affect heterosexual people. Additionally, many government and private agencies that fund our work require us to ensure inclusion and equity in our service delivery. So let's talk about inclusion and how to make our agencies more LGBTQ-supportive! Join us for a full-day, interactive training that will help you understand and appreciate the complex world of sex, gender, and sexuality and lay the groundwork for you to create inclusive spaces and practices, and meet funder guidelines.

*Workshop Fee: \$50 (FREE for member program staff)*

- May 24th, 2018

10 am - 4 pm

*Matthew La Rocco, CADC*

Studies have shown what many of us have known for a long time: trauma is often a factor in the development of substance use disorders. ## [Locked Out: A Lexington Fair Housing Council Report Overview](#)

- January 26th, 2018, 2 PM - 3 PM

*Drew Bowling, Lexington Fair Housing Council*

In recent years, there has been a growing conversation about what communities in the United States can do and are currently doing about the pervasive, persistent problem of evictions and the seemingly permanent impact being evicted has on residents. This 1-hour webinar will discuss "Locked Out: Foreclosure, Eviction, and Housing Instability in Lexington", 2005-2016, a report which examines where displacement is happening throughout Lexington, KY and who in the local housing industry appear to be playing the most active roles in housing turnover. The webinar will also provide theories to begin to understand broad themes, discuss who is affected by eviction, and who is benefiting from the eviction process, with the hope that we can begin to reconsider the legal processes that facilitate the displacement of so many of our community neighbors.

## [Annie E. Casey Foundation's 2017 Race for Results Report Overview](#)

- February 23, 2018, 2 PM - 3 PM

*Lisa Gabbard, KCADV*

In the KIDS COUNT policy report issued in October 2017, AEC Foundation explores the intersection of children, opportunity, race and immigration. The report features updated data for the Race for Results Index, which measures how children are progressing on key milestones by race and ethnicity at the national and state levels. The report also explores the significant barriers facing children in immigrant families, the majority of whom are also children of color, and offers recommendations for helping children in these families secure the stability, economic resources and opportunities all of the nation's children need to thrive. This 1-hour webinar will provide an overview of the report for KCADV member program staff and share related materials for use in advocacy efforts on behalf of immigrant families.

## [Key Findings from KCADV's 2017 Project Protect Focus Group Report](#)

- March 23, 2018, 2 PM - 3 PM

*Jenessa Bryan, KCADV*

In the fall of 2017, KCADV undertook a round of 6 focus groups, championed by Ann Perkins, the Executive Director of Safe Harbor in Ashland, KY. Ann identified a recurring trend over time and geography in the people seeking the services of her organization and the suggestion that the majority of domestic violence survivors in shelter or engaged in member program services had a current or immediate past engagement with child protection services. In rural communities with co-occurring substance use and poverty, survivors who enter shelter may have been separated from their non-offending parents as children and now face the risk of losing their own children. This webinar will review the methodology and key findings from the 2017 Focus Group report.

- [September 21st, 2018, 2 PM - 3 PM](#)

*Katie French, Jenessa Bryan, KCADV*

All programs administered through HUD's Office of Community Planning and Development (CPD) are required to follow the 2016 Gender Identity Rule as well as the continuing requirements of the HUD-wide 2012 Equal Access Rule. Together, these rules require placing and serving persons in accordance with their gender identity. The applicable programs include the CoC homeless assistance, Emergency Solutions Grant, Housing Opportunities for Persons with AIDS (HOPWA), Community Development Block Grant (CDBG), and HOME Investment Partnerships (HOME) programs, as well as the national Housing Trust Fund (HTF). ## Kentucky's Growing Rate of Incarceration of Women

- October 26th, 2018, 2 PM - 3 PM

*Meg Savage, JD, KCADV*

Kentucky has one of the fastest rates of incarceration of women. Research shows that the overwhelming majority of women defendants in the criminal justice system have extensive histories of childhood and adult abuse that may result in homelessness, substance abuse, and economic marginality that force them into survival by illegal means. Some women are coerced to engage in crime by battering partners or by partners' financial abuse, some are arrested for defending themselves against abuse, and others are arrested for not protecting their children from domestic violence. Recent changes in welfare, housing, immigration policies, drug enforcement, mandatory arrest, prosecution and sentencing policies can further criminalize women's efforts to survive, escape, and cope with abuse. This workshop will discuss the 6 pathways to incarceration for women, provide an opportunity to share resources, and identify strategies for advocacy on behalf of criminal justice system-involved victims of domestic violence.

## Understanding the US Immigration Process

- November 16th, 2018, 2 PM - 3 PM

*Leah Engle, Kentucky Equal Justice Center*

U.S. immigration law is very complex, and there is much confusion as to how it works. The Immigration and Naturalization Act (INA) is the body of law governing current immigration policy. Immigration to the United States is based upon the following principles: the reunification of families, admitting immigrants with skills that are valuable to the U.S. economy, protecting refugees, and promoting diversity. This webinar will provide a very basic review of how the U.S. legal immigration system is designed and how it functions.
